---

1. Professional Summary

Recent Pokhara University graduate specializing in Civil and Rural Engineering with hands-on experience in structural design, project management, and site coordination. Proven ability to manage complex engineering projects from conception through execution, with expertise in earthquake-resistant design, AutoCAD, ETABS, and field data collection. Seeking to apply technical knowledge and project management skills to contribute to innovative infrastructure development projects.

---

2. Technical Skills & Core Competencies

- **Structural Engineering:** Earthquake-Resistant Design, Load Analysis, RCC Design, Foundation Design, Structural Modeling.
- **Engineering Software:** ETABS (Structural Analysis), AutoCAD (Drafting & Design), GIS Mapping, MS Excel (Data Analysis & Calculations).
- **Technical Documentation:** Engineering Reports, Technical Drawings, Project Specifications, Construction Documentation
- **Field Skills:** Site Investigation, Field Data Collection, Surveying, Community Engagement, Field Photography & Documentation.
- **Professional Credentials:** NEC Eligible, Two-Wheeler and four wheeler License (Site Travel)

---

3. Professional Experience

Internship on Project Manager & Site Lead | EcoZone Architect and Construction Pvt. Ltd. |
Pokhara -10 Amarsingh Chowk, Kaski, Nepal
Job | Dreams Home Interior Design Pvt. Ltd.| Nov – ongoing

- **Site Management:** Coordinated daily site activities, monitored construction progress, and ensured quality control standards.
- **Technical Training:** Organized and managed logistics for technical training programs for construction teams.
- **Field Documentation:** Conducted site inspections, documented construction progress through detailed reports, photos, and videos.

- **Stakeholder Coordination:** Liaised with contractors, suppliers, and local teams to ensure smooth project execution.

4. Academic Projects & Research

•Design of Storage Tank of Water Supply and Distribution System of Nirmal Pokhari, Bagmara, and Pudi Sana Sahari Khanepani: Designed a reliable and efficient water tank to ensure adequate water supply for current and projected populations. Tools: AutoCAD, EPANET, MS Excel.

- **Case Study on Upgrading of Road Pavement of Pokhara–Mugling Highway** :Conducted a detailed study on the road pavement condition and proposed improvement techniques for enhanced durability and safety.

- **Study of Seti River Suspended Bridge** (Linking Pokhara-30 and Pokhara-33): Analyzed structural design aspects and materials used in the construction of the bridge

5. Education

B.E. In Civil Engineering and rural development

Pokhara University | Khudi 30 Talchowk, Kaski, Nepal | From 2021 To 2025

6.Languages

- Nepali (Native)
- English (Fluent)
- Hindi (Conversational)

---
